

Awarded by Indian Machine Tool Manufacturers Association (IMTMA

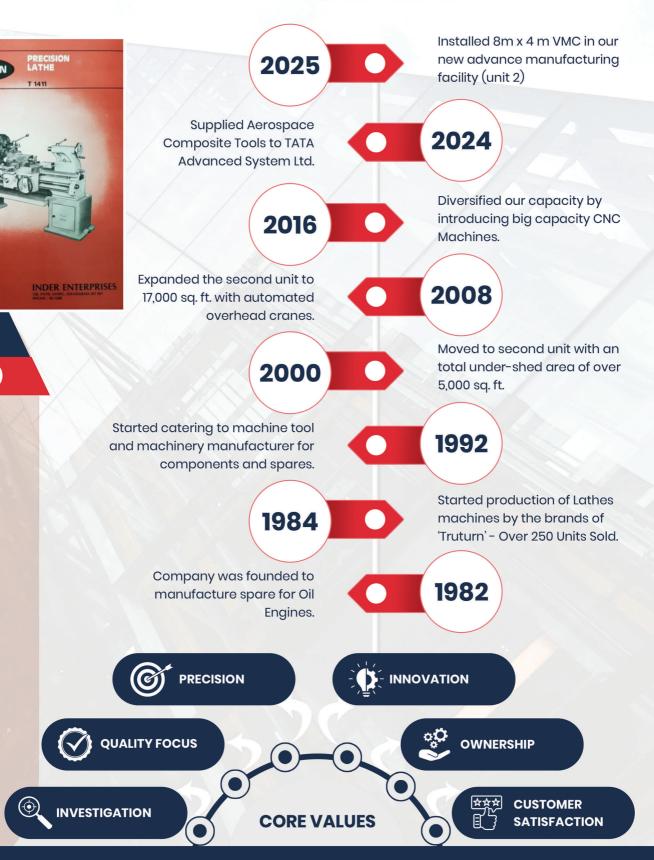

Mr. Inderjeet Singh Rao DIRECTOR

With over 40 years of experience, Mr. Inderjeet Singh Rao, Director, has shaped Inder Enterprises into a leader in precision machining. His strategic vision has enhanced capabilities to meet the evolving needs of Machine Tools & SPM, printing, aerospace, and nuclear industries. Under his leadership, the company continues to deliver high-quality, precision-engineered solutions.

Mr. Chiranjeev Singh Rao EXECUTIVE DIRECTOR

At Inder Enterprises, our commitment to precision and quality is driven by strong leadership. Mr. Chiranjeev Singh Rao, Business Development Head, plays a key role in steering the company's growth, fostering innovation, and embracing advanced machining techniques. His focus on efficiency and continuous improvement ensures that we exceed industry standards and customer expectations.

COMPANY HISTORY

AEROSPACE

OUR CUSTOMERS

Antenna Hub Assembly

Aerospace Composite Tool

SPECIALIZATION

Accuracy Level - 10 micron per metre

In-house Aluminium Precision Fabrication

CMM - Laser Tracker for large parts

Non-Desrtructive Testings

CMM - FARO Arm

Special Coatings like Hard Chrome, Passivation, Anodization etc.

PRINTING & PACKAGING

OUR CUSTOMERS

4.5 m x 1.5 m Print Frame

SPECIALIZATION

Accuracy Level - 10 micron per metre

Plasma Cutting and straightening for Raw Material to reduce cost

CMM - FARO Arm

Efficient Clamping Mechanism using High Power Electromagnets

Non-Desrtructive Testings

Special Coatings like Hard Chrome, Passivation, Anodization etc.

MACHINE TOOLS & SPMS

OUR CUSTOMERS

Grinding Machine Bed

CNC machine Tool Castings

SPECIALIZATION

Accuracy Level - 10 micron per metre

Plasma Cutting and straightening for Raw Material to reduce cost

Efficient Clamping Mechanism using High Power Electromagnets

Non-Desrtructive Testings

CMM - FARO Arm

Special Coatings like Hard Chrome, Passivation, Anodization etc.

ROBOTICS & AUTOMATION

OUR CUSTOMERS

6m Gantry for Robot Arm

/Base Frame Chassis for Robot :

Accuracy Level - 10 micron per metre

Large Straightedge (2m) and Right Angle (1m x 1m)

CMM - FARO Arm

Efficient Clamping Mechanism using High Power Electromagnets

Vendors with upto 12 metre casting capacity

Precision Steel Fabrication for Beds

STEEL & CEMENT

OUR CUSTOMERS

Frame

Uncolier Sleeve

Casting

SPECIALIZATION

Accuracy Level - 15 micron per metre

Choke Bore Grinding

Non-Desrtructive Testings

Efficient Clamping Mechanism

using High Power Electromagnets

Deep Hole Drilling

Special Coatings like Hard Chrome, Passivation, Anodization etc.

LIST OF MACHINES

S.No.	Machine	Dimensions	Additional Features
1	Gantry Type VMC	8 m x 5 m	Universal Milling Head
2	VMC	6 m x 3.5 m x 2 m	Auto 5 Face Machining
3	VMC	6 m x 3.5 m x 1.5 m	Manual 5 Face Machining
4	VMC	5 m x 2.3 m x 1.2 m	4 Axis Rotary Table
5	VMC	3 m x 2 m x 1.2 m	Manual 5 Face Machining
6	VMC	3 m x 2 m x 1.2 m	Manual 5 Face Machining
7	VMC	2 m x 1 m x 1 m	Die and Mould Capability
8	HMC	3.5 m x 2 m x 2 m	5 Axis Positioning
9	HMC	2 m x 1.8 m x 1.5 m	4 Axis Positioning
10	HMC	1 m x 1 m x 0.8 m	4 Axis Positioning
11	HMC	0.8 m x 0.8 m x 0.8 m	4 Axis Positioning
12	TABLE BORING	1.8 m x 1.8 m x 1.5 m	-
13	RADIAL DRILL	Upto 5 m	-

LIST OF INSTRUMENT **CALIBRATION**

ISO CERTIFICATE

CRANE (upto 25 Tons Capacity)

FARO LASER

FARO ARM
